

Information Builders is one of the largest independent software companies in the world. We work with over 11,000 customers to ensure their success by putting interactive and actionable information in the hands of everyone in the extended enterprise: employees, partners, suppliers, and customers.

# Business Intelligence Data Mart

## Implementation Services Pack

Accelerate data mart deployment and rapidly leverage the power of Web-based reporting and information delivery with Information Builders' Business Intelligence Data Mart – Implementation Services Pack. This comprehensive package combines expert consulting and training to cost-effectively deliver a complete data mart solution – in just 35 days.

The Business Intelligence Data Mart package includes everything you need to get your data mart up and running quickly and smoothly. Our highly skilled consultants will design, build, and implement your data mart for optimum performance and provide your technical team with the documentation, experience, and the knowledge they need to maintain it.

### Process

#### Step One: Needs Assessment (10 Days)

In the first phase, we'll conduct a thorough and comprehensive needs assessment to help maximize your return on investment while minimizing time to implement. This process ensures that we provide you with the best solution to meet your business needs, while reducing your risk and decreasing deployment time. We will:

- Assess and define your data requirements
- Estimate ROI
- Create a detailed project plan

#### Step Two: Data Mart Creation (20 Days)

In phase two, we'll populate your data mart with the information you need to answer your most critical business questions. Extract, Transform, and Load (ETL) requests will be designed, created, tested, and scheduled, then monitored throughout the cycle.

## Find Out More

To learn more about how the Business Intelligence Data Mart Implementation Services Pack, or other Information Builders' consulting services can help your company succeed, visit our Web site at [www.informationbuilders.com/consulting/index.html](http://www.informationbuilders.com/consulting/index.html), or in the U.S. and Canada, call **(800) 969- INFO**.

### Step Three: Maintenance and Knowledge Transfer (5 Days)

After your data mart has been deployed, we'll work with your operations and technical staff to ensure consistent performance. We will:

- Provide them with comprehensive documentation and specifications
- Show them how to support the architecture and monitor/maintain the ETL requests
- Recommend future steps for fully leveraging your new environment

Other options and business intelligence service packages are available to further enhance your new data mart, including development and deployment of complex Web reports.

### Accelerate Deployment of a Complete End-User Reporting Environment

Once your new data mart is ready to go, additional service packages are available to help you quickly and cost-effectively address your end-user reporting requirements. Our End-User Reporting Foundation package enables you to fully leverage the power of WebFOCUS by providing everything you need to rapidly build and deploy a comprehensive business intelligence application. Information Builders consultants will design, build, and implement your application based upon your unique business needs, and deliver a solution that provides your end users with immediate answers to their most critical business questions.
