

# Information Builders

Information Builders is one of the largest independent software companies in the world. We work with over 11,000 customers to ensure their success by putting interactive and actionable information in the hands of everyone in the extended enterprise: employees, partners, suppliers, and customers.

# WebFOCUS for Lawson

WebFOCUS for Lawson can access virtually any information source and deliver it in a variety of formatted reports to browsers, wireless devices, and e-mail addresses.

## Getting the Most From Your Lawson Investment

Streamlining business processes is today's best way to prevent operational problems and compete more effectively. That's why businesses worldwide have deployed ERP packages such as Lawson to automate and integrate their most critical business functions and to facilitate collaboration among customers or clients, partners, suppliers, and employees.

But while Lawson applications offer significant benefits, comprehensive Web-based business intelligence is also needed to achieve vital business goals. That means accessing and integrating data from Lawson applications and other sources throughout the enterprise in real time, turning it into relevant, consistent information, and making it easily accessible to users both inside and outside the enterprise. To help Lawson customers satisfy that need, Information Builders offers WebFOCUS for Lawson.

## Robust Business Intelligence Functionality for Your Lawson Environment

WebFOCUS for Lawson supplies all the powerful capabilities of our WebFOCUS enterprise business intelligence solutions and is optimized to work seamlessly with your Lawson systems. WebFOCUS for Lawson empowers you to meet your wide-scale demands for mission-critical data and to provide secure, essential, and real-time business information to an unlimited number of users.

## Find Out More

To find out how our solutions can help your company succeed, talk to an Information Builders representative today. Contact your local Information Builders office, visit us at [www.informationbuilders.com](http://www.informationbuilders.com), or in the U.S. and Canada, call **(800) 969-INFO**.

With WebFOCUS for Lawson, you can:

- Easily create custom reports (even the most complex financial reports), ad hoc queries, and OLAP-style analysis from data in Lawson financial, human resources, procurement, services automation, and distribution applications, with drill-through to any enterprise information
- Accelerate the report-development process with prebuilt Lawson views that eliminate the need to perform complex joins
- Quickly build custom reporting views with an online, graphical representation of Lawson's application interface and data model that provides easy exploration and navigation of Lawson tables and their contents
- Rapidly deploy financial and human resources reports with a portfolio of predefined analytic templates
- Access and integrate data from Lawson applications, as well as more than 85 other data sources
- Protect sensitive reports and data through support for internal Lawson security, as well as integration with Internet security such as LDAP, to allow refined access rules down to the data-value level; full synchronization with Lawson security also minimizes the need for additional security definitions
- Empower end users to satisfy their own information needs while allowing administrators to maintain control over the environment using a robust report-management infrastructure with integrated dashboard capabilities
- Dynamically deliver information in a variety of common business formats such as HTML, PDF, and Excel 2000
- Automatically distribute reports on a scheduled or alert-driven basis to the Web, e-mail, or wireless devices
- Optimize system usage and minimize maintenance costs with sophisticated preemptive governing

### Comprehensive Support and Service

WebFOCUS for Lawson includes comprehensive consulting services to ensure smooth and rapid deployment. Highly skilled specialists will configure your solution for optimum performance by customizing your Lawson data views and providing report design and development services.
