

WebFOCUS 8.1 Certification Program

WebFOCUS 8.1 Certification Program benefits for you:

- Validation of up-to-date product knowledge
- Industry wide recognition for skills
- Enhanced proficiency, career, and business opportunities

Program benefits for your employer:

- Increased productivity
- Independent validation of employee skill levels
- Maximum WebFOCUS ROI

Whether you strive to step up in the ranks of your IT group or increase your value in the global market, being WebFOCUS-Certified is a key investment in your career. The WebFOCUS 8.1 Certification Program is designed to acknowledge and reward customers who obtain a high level of proficiency with WebFOCUS products.

This program offers reliable training and validation of experience that can advance professional development, improve productivity, and enhance credibility. A combination of hands-on training and lectures will help to solidify technical prowess, expand product knowledge, and provide an opportunity for accelerated career choices.

Who Should Participate?

The WebFOCUS Certification Program is designed for any business analyst involved in self-service analytics or any application developer involved in creating/maintaining WebFOCUS applications

Three Available Certifications

Business Analyst –
Certified Associate

Application Developer –
Certified Associate

Application Developer –
Certified Professional

Information Builders helps organizations transform data into business value. Our business intelligence, integration, and data integrity solutions enable smarter decision-making, strengthen customer relationships, improve performance, and drive growth.

Preparing for Your Exams

Instructor-led or eLearning classroom training is always recommended as your first steps. However, should you already have extensive experience with WebFOCUS, you may choose to take the WebFOCUS Certification tests without first taking the recommended courses.

Registering for Your Exams

You register for your exams on the Information Builders Education website.
